

KEY NOTES

- 02 Concrete masonry
- 22 Grout per structural design
- 37 Reinforcement per structural design
- 40 Grout stop material below bond beam
- 93 Steel beam where occurs, weld to angle along top flange
- 94 Continuous steel angle
- 86 Anchor bolt w/ 1 in. min. grout all around
- 95 Continuous steel plate; drypack under plate for leveling as required
- 97 Bond beam per structural design
- 98 Connection plate welded to upper flange of beam

KEYWORDS

CMU, Concrete masonry, Block, Structural, Reinforced, Exterior, Northwest, 02.120.0220

TITLE

Exterior masonry | Parallel wood beams

SCALE

None
